AGFEO

einfach | perfekt | kommunizieren

User Instructions

The AGFEO DECT 35 Cordless System Phone is designed for the connection / registration to an AGFEO DECT S0 Base or an AGFEO DECT S0-Base plus.

The AGFEO DECT 35 will be supported by all AGFEO Telephone Systems from a firmware 8.0 and a DECT firmware from 2.6.

AGFEO GmbH & Co. KG will not accept any liability whatsoever for any damages which may have been caused by improper use of the DECT 35 Cordless System Phone.

About this User Guide

This user manual is intended for the telephone system with the firmware installed at the time of shipment. As the DECT35 Cordless System Phone is controlled from the telephone system certain features described in this manual may no longer apply if the system firmware is changed.

This manual contains user instructions for the DECT 35 Cordless System Phone and a brief reference regarding the system features. A detailed description of features relating to the telephone system can be found in the user guide of the telephone system.

Cordless System Phone DECT 35

Contents:

- 1 DECT 35 Cordless Handset
- 1 Rechargeable Battery Pack
- 1 Charging Cradle with Plug In Power Supply
- 1 User Manual

Charging the Battery Pack

NOTE: The supplied battery has not been charged.

To charge the battery insert the handset in the charging cradle of the DECT 35. The charging status will be shown in the display of the phone. However, the display may remain without any indication for a few minutes if the battery will be charged for the first time. The handset will sound a beep once the battery has been fully charged.

- NOTE: The first initial charge should be carried out for at least 16 hours - regardless of the charging status display.
- After the initial charge you may return the handset into the charging cradle after each call. The charging of the battery is electronically controlled to guarantee an optimal and gentle charging process.
- The battery may get warm during charging.

An even longer battery life can be achieved if you discharge the battery completely every so often. To discharge the battery, leave the handset switched on until this will switch off by itself.

Cordless System Phone DECT 35

Switch Handset ON / OFF

Switch to ON:

Press the handset button for 1 second

Switch OFF:

Press the  button for 3 seconds

The DECT 35 will switch ON after the battery is connected and the handset is inserted into the charging cradle.

Keypad Lock

Enable the keypad lock:

Press the  button for 2 second

Disable the keypad lock

Press the  button for 2 seconds

Pressing any button will have no function when the keypad is locked.

To answer a call press the „Handset Button“, the keypad lock is automatically disabled during a call.

Ringer On/Off

Switch the ringer off:

Press the  button for 2 second

Switch the ringer back to on:

Press the  button for 2 second

If the tone ringer is switched off then incoming calls will be indicated visually and where applicable by vibration alarm.

Cordless System Phone DECT 35

DECT 35 Settings

To enter the DECT 35 settings menu, press and hold the button „Set“ for longer than one second.

Two different settings can be carried out within the menu **Profile**. Each of these profiles offer the following settings:

- Ringer volume: Here you may set the required ringer volume.
- Key Click: You may set if you hear a click when pressing buttons of the DECT 35.
- Signals: Setting the volume of the handset confirmation/warning tones.
- Vibrator: Will set the vibration alarm to on or off.
- Auto-Answer: This will set the auto answer function for the DECT 35. The auto answer function is useful if you wear a headset and wish to answer every call without the need to press a button on the handset.
- Charger: Here you can set if an incoming call should automatically be answered when the handset is removed from the charging cradle.
- Earpiece Vol: The volume of the handset can be set in 5 steps.
- Range Alarm: You may set if the handset should give an alarm if it goes outside the range of the DECT base station.
- Backlight: The backlit display can be switched on or off here.
- Keylock: You can set if the keypad lock will be manually enabled or lock automatically after 60 seconds.

The display language on the DECT 35 can be set from the menu **Language**.

The menu **Ringer** offers the setting of the 10 various ringing patterns (Calls Incoming/Setup Incoming Ringing Patterns in TK-Suite) which have been set in the telephone system. Due to this extension -, doorphone - and incoming calls are easily recognisable by the ringing pattern set.

The menu **Phonebook** offers the following selection:

- dial telephone numbers from the phone book of the DECT 35,
- store new phone book entries,
- delete phone book entries.

The menu **Base Station** offers the selection of:

- selection between 10 memory locations of base stations,
- register your cordless handset to another base station,
- delete a base station entry from your handset.

In the menu **Service** you will be able to display:

- the metering mode of your cordless phone,
- display the firmware version of your DECT 35 cordless phone.

Cordless System Phone DECT 35

Cleaning

- Only wipe the cordless phone with a slightly damp cloth or dry anti static cloth.
- Please ensure that no moisture is allowed to enter the unit.

Accessories/Range

Accessories (Available via our dealer network)

The following items are available via our dealer network: replacement batteries, head sets of various manufacturers, charging cradle, DECT repeater to extend the range, leather case and belt clip.

Range

The maximum range between DECT 35 handset and DECT S0-Base plus can be up to 300 metres in line of sight. However, the range will be reduced by obstacles between base and handset such as walls and furniture. As a general rule the range within a building will be approx. 50 metres.

Rechargeable Battery

Standby Time

max. 120 hours

Talk Time

max. 12 hours

Battery Replacement

- Please use only original AGFEO DECT 35 rechargeable batteries.
- DO NOT use any other charging device as the rechargeable batteries could be damaged.

Please dispose of old batteries responsibly.

Cordless System Phone DECT 35

Replacing Battery

To open the battery compartment, press the cover with your thumb and slide towards the headset connection, then lift this upwards. To refit the cover follow this instruction in the reverse order.

Approved rechargeable batteries:

Only the enclosed battery is approved for use with this handset. **Do not use any other battery.**
